

AND HERE I SIT

BY CLASTE COLLECTION

An unexpected shift in appearance is the central idea behind the design of this chair. It switches from precariously balanced to solid and permanent through the clever use of a triangular base which creates the illusion that the chair is missing one leg. Also available in limited editions of stainless steel and brass every chair is assembled and finished by hand combining an in-depth knowledge of traditional techniques of craftsmanship and artistry with a desire to push the boundaries of what is possible in contemporary design and fabrication

Dimensions

18"x19.25"x33"
