

BM0488S TABLE BENCH

BY CARL HANSEN & SON

The BM0488S Table Bench is a shorter version of Børge Mogensen's famous bench with the characteristic woven seat, understated details and precise craftsmanship. With its more modest dimensions, the table bench can easily be combined with the longer BM0488 Table Bench, but it also serves as an independent piece of furniture which can be used as a bench in the entrance hall, as a side table in the living room or as a bedside table
