

BOCCI 141

BY BOCCI

The 141 series is crafted by pouring two ladlefuls of hot glass freehand over a curved rod to create two overlapping puddles. The rod is then lifted, and the puddles wing out into an unpredictable shape in a gesture that is both simple and cinematic at once. After this process, the rod is replaced with an LED light source. The 141 is meant to be hung as a single element or in clusters, with the irregular shapes conversing with one another.

Dimensions

Approx. 250-330mm in diameter
3000mm length cable standard
Each individual pendant size varies and multiples should be expected to range in size, Bocci will make no attempt to match pendant size and specific pendant size cannot be specified.
