

BOLLE TRANSPARENT CIRCULAR CHANDELIER

BY GIOPATO & COOMBES

The lightness of the soap bubbles has become a metaphor for the immateriality of light. Bolle is a collection of lamps in transparent glass, where the illuminating brass bulb is suspending between the spheres, giving light to not only the space but also the curved surfaces, multiplying reflections to amplify the magical effect. Together with selected artisans, Giopato&Coombes look for the best manufacture technique for every single project. The Bolle lamps are hand blown by local Venetian artisans using the "a lume" technique.
