

CEILING LAMP 3 ARM

BY SERGE MOUILLE

Throughout the 1950s Mouille designed large, angular, insect-like wall mounted and standing lamps with several arms and smaller, more curved wall sconces. He worked to achieve a kinetic, sculptural aesthetic that evoked a sense of movement in space. He claimed his lighting fixtures were “a reaction to the Italian models, which were beginning to invade the market in 1950," and which he thought to be “too complicated."
Simple and elegant, this ceiling lamp makes a dramatic addition to a veriety of room settings. With 3 rotating arms of differing lengths and heads that revolve and tilt, this lamp is capable of projecting upwards, downwards and sideways

Dimensions

33", 43", 53" arms x 18" H

Material Options

Finishes: Black or white
Lacquered aluminium and steel with brass ball joints
Each lamp is stamped and numbered
