CH07 SHELL CHAIR

BY CARL HANSEN & SON

The famous Shell Chair is sculptural, three-legged and eminently comfortable. The floating form is highlighted by the wing-shaped seat and arching legs. The chair is often given a prominent location so that it can be admired from all sides and is stable even though it only has three legs. Designed by Hans J. Wegner in 1963.

Dimensions

36.5" W x 29" H x 33" D, Seat Height: 14"

Material Options

Available in a variety of finishes in beech, oak or walnut. Seat and back is made from the highest quality form-pressed hardwood laminates. The front legs are made of one piece of continuous laminated wood, the back leg from another. Upholstered in the customer's choice of leather or fabric.
