

CH162 SOFA

BY CARL HANSEN & SON

Wegner's unparalleled attention to detail is visible throughout the design of the CH162 sofa, as is his ability to transform functionally necessary elements into unique details. The two-seater CH162 sofa is built upon a solid beech wood frame whose vertical and horizontal lines are softened by upholstered cushions made of a foam core surrounded by European down and cold foam. Using down in a sofa construction was a brand new idea at the time and enabled Wegner to infuse exceptional comfort into a fairly geometric shape.

Dimensions

54" W x 31.5" D x 30" H, Seat Height: 16"
