

CH417 TRAY TABLE

BY CARL HANSEN & SON

Hans J. Wegner's tray table is an elegant and flexible piece consisting of two parts – a round tray and a collapsible base – and can thus be used both as a coffee table and as a tray.

Dimensions

24.5" Diameter x 14" H.

Material Options

The reversible coffee table is available with two different tray variants: one features white and black laminate surfaces, the other – veneer surfaces in light and smoked oak. In both variants, the tray rim is made of light oak and the handle of smoked oak. The base is stainless steel.
