

CH445 WING CHAIR

BY CARL HANSEN & SON

The CH445 easy chair is fully upholstered and built upon a solid beech frame that rests on hand-finished stainless steel legs. What you don't see is how the design of the backrest and the seat enables a variety of positions, always providing excellent support for the back, shoulders, neck and head. At the same time, the thin legs give the chair an ideal pitch because the front legs are slightly higher than the back legs.

Dimensions

35.5" W x 35.5" D x 40.5" H, Seat Height: 15.5"

Material Options

Upholstered in a choice of fabric or leather. Available in stainless steel legs.
