

CH446 OTTOMAN

BY CARL HANSEN & SON

Hans J. Wegner designed the CH446 footrest as an obvious match to his two iconic lounge chairs, the CH445 Wing Chairand the CH468 Oculus Chair. All three designed in 1960. However, it works equally well on its own or in groups. The footrest is crafted around a solid beech wood frame with legs in stainless steel giving the footrest both a light appearance and a durability that will keep it around for generations to enjoy.

Dimensions

24.5" W x 19.5" D x 15" H

Material Options

The CH446 is available upholstered in either one of our many fabrics or in one of our three different types of leather. Available in stainless steel legs.
