

CH71 LOUNGE CHAIR

BY CARL HANSEN & SON

Carl Hansen & Søn is proud to present a lounge chair and sofa highlighting Hans J. Wegner's unique mastery of upholstery and furniture craftsmanship. Wegner possessed a rare ability to unite aesthetics, function and comfort - a talent clearly evident in the sculptural furniture set the world-famous Danish architect and designer first introduced in 1952. The CH71 lounge chair and CH72 two-seater sofa, which have not been in production since the late 1970s, now join the Carl Hansen & Søn collection.
Both the CH71 and CH72 are characterized by relatively small dimensions, a slim, comfortable, fully upholstered frame, and round, tapered legs in solid wood. The comfortable furniture set features loose cushions and upholstered armrests that are finished with elegant, rounded, solid wood handles.

Dimensions

Height: 84 cm / 33.1 inch
Seat Height: 41 cm / 16.1 inch
Width: 70 cm / 27.6 inch
Depth: 70 cm / 27.6 inch

Material Options

Available in variety of wood finishes. Uphoslteres in a selection of fabrics.
