

CHAIR ONE

BY DE LA ESPADA

Chair One is a pared back solid wood chair with an extreme visual levity. “We started from a stress diagram, a little like Jean Prouvé and the design of his furniture. An idea of designing at the limit where comfort appears as a surprise," explains Manuel. The chair reflects Manuel's approach to architecture: honest materiality, bold yet timeless, innovative yet connected to the past, and an interplay of volume and void.
