

CIRQUE FLOOR-TO-CEILING COLUMN

BY GIOPATO & COOMBES

Lamps with slender thread-like structures in brushed brass, that change form to create infinite geometric compositions. The figure, suggesting circus gear, is interrupted by capsules that project continuous light. Each capsule, made in ribbed glass with extremities in brass, crafted with a lathe using a very refined technique that starts with a solid block of the material, conceals light guides used in the automotive sector that make it possible to connect the LEDs contained in the ends of the capsule, conducting the light along the entire length.

Dimensions

40: Ø4.7 x H35.4" + Drop
60: Ø4.7" x H39.5" + Drop
90: Ø4" x H51" + drop
120: Ø4" x H63" + drop
Standard up to 120". Custom heights additional.

Material Options

Brushed Brass, Brushed Bronze, Blackened Brass
Borosilicate glass

Lamping

2 Proprietary Cirque LEDs.
9W, 800Lumens, 2700K warm white.
