

CLOUD SIDE TABLE

BY TOM FAULKNER

the Cloud collection celebrates form, shape and the blacksmith's art.
The legs of these marble side tables are made by a skilled blacksmith, and each one is hammered by hand. The marble itself looks like it is 'floating' above the frame, and the overall look is delicate and 'insect-like'.
Cloud can be made with any of our marbles, and the legs can be made in either steel or bronze. Click here to see our range of finishes and marbles.

Dimensions

Height:50cm/19.7in Width:41cm/16.1in
