CLOUD SOFA

BY TOM FAULKNER

The Cloud sofa marks our first foray into soft furnishing, bringing a whole new character to a quintessential Tom Faulkner design. Its curvaceous, organic shapes were inspired by the rocks which line the beaches of North Devon, a place Tom returns to often. The traditionally sprung seats and backrests echo the forms of rocks shaped by the elements over time. They're supported by four hammered bronze legs. Shown here in Tom's choice of Dedar "Per Inciso" in 001 Perla. Available in COM (customers own fabric).
