

DEW SCONCE

BY SKLO

The Dew Sconce is an intense expression of the molten origins of handblown glass. For a diffuser, the Dew Sconce features a solid sculpted glass shape composed of layers of glass applied while hot, giving it a dripping appearance. The glass is permanently affixed to the solid brass armature, hidden behind a minimal brass cylinder, which lifts to give access to the bulb. The fixture uplights slightly through the open top of the cylinder. The glass diffuser is available in either clear glass, or frosted clear glass, for two very different effects.

Dimensions

22"H
6.5"Deep
5.5"Diameter

Material Options

Glass: Clear or Clear Frosted
Metal: Dark Oxidized, Brushed Brass, Brushed Nickel, Polished Nickel

Lamping

Socket 120V G9 7W Max
LED bulb included
Requires recessed electrical box for installation
Fixture weight (approximate): 7lbs/3kg
