

E005 EMBRACE DINING ARM CHAIR

BY CARL HANSEN & SON

The Embrace Dining chair's frame is crafted from wood. The back piece of the frame, composed of three pieces assembled in classic finger joints, is particularly striking, its simplicity emphasizing the elegant craftsmanship. The soft cushion is folded into three dimensions and functions as a seat, back and armrests in one. The upholstery embraces the wooden structure, with the seat and back appearing to float inside the chair.

Dimensions

23.5"W X 22"D X 33.5"H, Seat Height: 18.5".
