

# E021 EMBRACE LOUNGE SIDE TABLE

**BY CARL HANSEN & SON**

The Embrace Lounge Table E021 is available in two heights - as a low coffee table and a slightly taller and slimmer side table. Both versions highlight the light expression of the Embrace Series, where the circular wooden tabletops seem to float on stabilizing steel structures inspired by kites blowing in the wind. Designed by Austrian design trio EOOS for Carl Hansen & Son, the Embrace Lounge Table fits with any interior, both public, private and corporate.
