

EYE SCONCE

BY SERGE MOUILLE

Throughout the 1950s Mouille designed large, angular, insect-like wall mounted and standing lamps with several arms and smaller, more curved wall sconces. He worked to achieve a kinetic, sculptural aesthetic that evoked a sense of movement in space.
The Mouille “œil" or Eye Sconce is named for the shape of the shade. This simple yet practical lamp is suitable for many applications due to its diminuative scale and shade that both tilts and swivels. Switch on mounting plate.

Dimensions

8" W x 10" D x 5" H

Material Options

Finishes: Black or white
Lacquered aluminium and steel with brass ball joints
Each lamp is stamped and numbered
