

F-CHAIR

BY GUBI

The garden gets an upgrade with the simple functionality of two of French architect and designer Marcel Gascoin's most enduring iconic designs. GUBI's new outdoor collection, now in teak, represents significant innovation for Gascoin's iconic design, and adding a new lounge typology to GUBI's collection.
The F-Chair has been developed especially for the outdoors in close collaboration with Gascoin's family from his original drawings, supported by intensive research and prototyping. The harmonious interlocking between the armrests, the rear legs and the backrest took particularly high levels of craftsmanship to resolve.
