FLAME SCONCE

BY SERGE MOUILLE

Throughout the 1950s Mouille designed large, angular, insect-like wall mounted and standing lamps with several arms and smaller, more curved wall sconces. He worked to achieve a kinetic, sculptural aesthetic that evoked a sense of movement in space.
An elegant twist of metal results in a lamp that illuminates upwards while creating playful shadows through the elongated metal with tapered ending. Totally unique, this lamp adds a distinctive touch in any setting.
