

FLOAT COLLECTION

BY LADIES AND GENTLEMEN STUDIO

L&G Studio is proud to present an illuminated sculpture series, FLOAT, capturing a moment of suspension in space. FLOAT implores combinations of the least, most essential elements working in concert to intimately define space with light and form. All forms exist to support and serve the other to direct a soft glows and shadows into its surroundings.
FLOAT is available in standard configurations as well as custom commissions tailored to spaces' needs.

Dimensions

Round: 31" x 31", shade: 30" x 25"
