

FLORENCE KNOLL HAIRPIN STACKING TABLE

BY KNOLL

First introduced in 1948, Florence Knoll's Model 75 stacking stool was an instantly popular addition to what was then still a small catalog of furnishings from Knoll Associates. Florence based the compact design on earlier studies using steel rods at the Cranbrook Academy of Art. The Model 75 stool is now reintroduced as the Hairpin™ Stacking Table.

Dimensions

13"W x 13"D x 18.5"H
