

FORMWAY LIFE CHAIR

BY KNOLL

Designed by Formway Design for Knoll, the Life chair is made from eco-sensitive materials streamlined in a sculptural, zen-like silhouette, without sacrificing the ultimate in performance, precision and durability. Life sets the international standard for high-performance, ergonomic seating, fitting naturally into any work space. Ideal for the home office, the Life chair can be customized for any environment. A wide range of upholstery options enable the home user to benefit ergonomically without sacrificing aesthetics.
