

GALILEO SOFA

BY PIERRE AUGUSTIN ROSE

The Galileo collection from Pierre Augustin Rose unfolds a language of fluid curves and organic gestures, where each piece appears as if drawn in a single continuous motion. At the heart of this visual vocabulary lies the woven wood backrest, a detail both sculptural and poetic that defines the identity of the line.

This creation is crafted from solid wood, a natural material that naturally expands, contracts and cracks with temperature and humidity changes. Variations in grain, colour, and texture are inherent and natural. These natural changes are a sign of authenticity, and part of what makes each piece unique
