GEM VERTICAL CLUSTER PENDANT

BY GIOPATO & COOMBES

Gem is a suspension lamp, in hand blown glass, made with “a lume" technique, which is another expertise within the Veneto region. The surface can be clear or with a “corroded" finish, which seams like a white moon dust coating. There are several compositions from linear to bunches. The glass gems cling to a brass tube, via brass buds which contain a proprietary led source.

Dimensions

07: 29"D x 48"H + Drop Height
14: 32.5"D x 73.5"H + Drop Height
