

GEMMA SCONCE

BY IN COMMON WITH

A hand-blown sconce whose sleek form shares the spotlight with playful decorative trim. Gemma's shades are made using a modern variation on a centuries-old practice, which involves applying handmade glass details—in this case, marble-like dots—to blown glass surfaces. Fitted with hand-finished brass details and a bell-shaped diffuser that matches the shape of its shade.

Dimensions

5 ½ in D × 5 ? in W × 5 ? in H
