

ION

BY CREATORS OF OBJECTS

Oval ION tables feature unique, scaled fluting that wraps around their shape. A glossy tinted resin top, adds a pop of colour, contrasting with the stone like material through the rest of the piece.

ION works beautifully as an accent table or grouped together. Available in three sizes and many colour combinations, ION is crafted through an additive casting process using a custom blend of recycled glass powder and resin, giving its surface a subtle, sparkly texture.
