

# KOTILAINEN CHIP CHAIR

**BY KNOLL**

Inspired by the sea in motion, Finnish designer Antti Kotilainen created CHIP with graceful lines and rhythmic curves suggestive of a cresting wave. The forms of the seat and back are achieved by laminating 27 separate sheets of birch, and are supported by a chrome-plated steel frame.

### Dimensions

21.5"W x 20"D x 31"H, Seat Height: 18", Arm Height 27"

### Material Options

Shell is constructed of melamine-covered molded birch and is available in 5 colors
