

# LEDGE DRY BAR

**BY SIMON JOHNS**

Ledge Dry Bar is a floating wall-mounted sculptural dry bar. Made of carved solid ash, it's surface recalls the textures of crumbling cliffs around the studio. It's interior has two solid wood surfaces for a collection of bottles and an adjustable smoked glass shelf for glassware. The back of the interior is covered in a matte black leather. Definitely the most ambitious piece in the Ledge Collection.

### Dimensions
