LEGATO STRING

BY LUCA NICHETTO

Designed by Luca Nichetto. Legato, a musical reference indicating a smooth and unbroken connection of notes, is a modular system of lights that follows this same principle. Legato is available in both vertical and horizontal configurations. The vertical strings offer flexible possibilities — from a pendant to a soaring column of modules. The modules can be oriented facing up, producing soft light reflected from the ceiling, facing down for more direct illumination, or a combination of both.
Note: The standard Legato String includes 10 cones
