

LILY COCKTAIL TABLE

BY TOM FAULKNER

The Lily cocktail table is a wonderful mix of playfulness and elegance. The organically shaped tops, inspired by lily pads are cut from marble, bronze, concrete with bronze or steel and sit on long, elegant stems. The steel is gently patinated, or blackened and the bronze is hand-polished or brushed. Stand-alone or grouped together the Lily is unique, quirky, and a useful addition to any room.
