

LISSONI OUTDOOR SEATING

BY KNOLL

The Lissoni Outdoor Sofa is a crisp, linear design that anchors any setting. Attention to detail is evident across every part of this elegant sofa, from the gently rounded armrests to the precisely perforated back panels. In addition to permitting airflow to keep you cool on warm days, the perforated pattern adds visual interest when the sofa is seen from the back, as is often the case in outdoor spaces. Thick seat cushions are paired with loose throw pillows that can be arranged to suit however you like to read, relax, or nap. Outdoor-friendly fabric completes this worry-free collection.
*On production hold 3.28.24
