

LUNA LIGHT

BY ANNA KARLIN

Based on the rare moments where a process called Rayleigh scattering gives the moon a magic rose glow this lamp designed to capture that moment. An antique brass half cylinder shell holds a hand blown acrylic sphere and cylinder. These are then hand finished to give them a rose alabaster glow.

Dimensions

Large: W – 72", H – 22 1/2", Globe: 18" DIA, min. drop height 28"
Medium: W – 54", H – 18", D – 14"
Globe: 14" DIA, min. drop height 24
Small: W – 36", H – 13-1/4", D – 10"
Globe: 10" DIA, min. drop height 19"

Material Options

Steel and Acrylic, antique brass finish
