METRONOME READING LAMP

BY APPARATUS

The Metronome Articulating Floor Lamp, by Apparatus, evokes the measure and balance of it's namesake. The patinated brass sphere perches atop the conical base, which is hand-wrapped calf suede to provide a lush tactile contrast. A channel in the firmly grounded base reveals an intimate connection between the two forms. A dimmer knob it set into the base.

Dimensions

4" to 60" H x 37.5" L rotating arm

Material Options

Aged brass, oil rubbed bronze, blackened brass, or tarnished silver. Tarnished silver available for an up-charge with black, bronze or mink suede
