

# PHOENIX RECTANGLE DINING TABLE

**BY TOM FAULKNER**

Twin bases made of triangular tapering spears which beautifully and seamlessly nest together. Close observation of the base reveals an interesting – and initially unexpected – asymmetry. Simple to look at but complex to achieve. Each leg is made individually – by hand. The top is a wonderful light grey rippled sycamore veneer. “Fiddleback" – as it is sometimes called. Beautiful to look at and beautiful to the touch.
