

REFECTORY EXTENDING TABLE

BY DE LA ESPADA

Refectory is a monastic, utilitarian, and robust extending table with a pragmatic, functional design that embraces the passage of time. A very tough yet elegant table in solid timber. Rather than conventional extension mechanisms, the table makes innovative use of linear guides - normally used for accurate and smooth movement of machine components - enabling quiet, maintenance-free operation. The solid wood extension leaves are stored inside the tabletop when not in use.

Dimensions

W230/275/320 × D100 × H74 cm
