

ROTATING SCONCE 2 ARM (1 CURVED)

BY SERGE MOUILLE

Throughout the 1950s Mouille designed large, angular, insect-like wall mounted and standing lamps with several arms and smaller, more curved wall sconces. He worked to achieve a kinetic, sculptural aesthetic that evoked a sense of movement in space.
The long straight arm of this sconce is 69 inches allowing for illumination deeper into a room when needed while the shorter arm maintains lighting closer to the wall. Maximum flexibility is acheived with independently rotating arms and swiveling heads.

Dimensions

44" and 69" arms x 24" H

Material Options

Finishes: Black or white
Lacquered aluminium and steel with brass ball joints
Each lamp is stamped and numbered
