

ROTATING SCONCE 3 ARM

BY SERGE MOUILLE

Throughout the 1950s Mouille designed large, angular, insect-like wall mounted and standing lamps with several arms and smaller, more curved wall sconces. He worked to achieve a kinetic, sculptural aesthetic that evoked a sense of movement in space.
With arms measuring 52, 58 and 91 inches, this sconce can project light into a room at varying angles due to the independent rotation of each arm and each shade. Switches located on mounting plate.

Dimensions

52", 58" and 91" arms x 43" H

Material Options

Finishes: Black or white
Lacquered aluminium and steel with brass ball joints
Each lamp is stamped and numbered
