ROTATING SCONCE 5 ARM

BY SERGE MOUILLE

Throughout the 1950s Mouille designed large, angular, insect-like wall mounted and standing lamps with several arms and smaller, more curved wall sconces. He worked to achieve a kinetic, sculptural aesthetic that evoked a sense of movement in space.
This sconce is designed so that one short and one long arm rotate at the same time creating a unique effect with illumination. Shades pivot in place. Switches located on mounting plate.

Dimensions

33", 43", 2 x 89" and 94" arms x 67" H

Material Options

Finishes: Black or white
Lacquered aluminium and steel with brass ball joints
Each lamp is stamped and numbered
