

SEAM COLLECTION

BY ARTICOLO STUDIOS

Seam honours the meeting of materials, where joins are celebrated, not concealed.
The Seam collection offers installation flexibility — fixtures can be installed as standard or rotated 180 degrees, repositioning design details such as the stainless steel band and expressed weld.
Subtle pitting and surface marks may appear near weld areas, reflecting the natural character of the fabrication process rather than imperfections.
*This collection is sold with an external driver, please consult with your Hollace Cluny rep before reviewing with your electrician.
