

SOME ARE BORN TO SWEET DELIGHT

BY CLASTE COLLECTION

This sofa delicately entwines the worlds of art and design creating a piece where the notions of stability and tension are balanced with the desire to ground a piece within a larger context. Combining the exaggerated cantilever of the seat plane and the monolithic aspect of the large slab (back) forces the sofa to be considered from both the front and rear creating an element that can float within a larger space. The vertical plane acts as a divider allowing separation both functionally and aesthetically and creates a visual anchor to any space regardless of its scale.

Dimensions

90"x33.5"x51"
