

SOUPIRE SIDE TABLE

BY NADINE HAJJAR STUDIO

Soupire is part of the Coralis collection inspired by my mediterranean origins. Created with corals in mind, their design blurs the line between mineral and animal aesthetics. They use their tentacles to peek through the thin metal sheet that symbolizes the sea line. They like a good view but are quick to get bored. Rotate them between seasons and watch them interact with light as they reveal mystical silhouettes and spread playful shadows onto your space.

Dimensions

Approx
. 22'' x 22'' x 22''
. 56cm x 56cm x 56cm
