SPIDER CEILING LAMP 5 ARM

BY SERGE MOUILLE

Throughout the 1950s Mouille designed large, angular, insect-like wall mounted and standing lamps with several arms and smaller, more curved wall sconces. He worked to achieve a kinetic, sculptural aesthetic that evoked a sense of movement in space. He claimed his lighting fixtures were “a reaction to the Italian models, which were beginning to invade the market in 1950," and which he thought to be “too complicated."
Elegance in form and function are hallmarks of a Serge Mouille lamp. This ceiling lamp with rotating heads on five fixed arms is the perfect compromise between illuminating an interior and functional design in a room.
