

STANDING LAMP 1 ARM

BY SERGE MOUILLE

Throughout the 1950s Mouille designed large, angular, insect-like wall mounted and standing lamps with several arms and smaller, more curved wall sconces. He worked to achieve a kinetic, sculptural aesthetic that evoked a sense of movement in space.

Clean, simple lines describe the elegance of this Serge Mouille floor lamp. A long, slender arm supported by a tapered triangular base allows the swiveling shade to illuminate at any angle.
