

TINSEL

BY WORKSTEAD

Tinsel is a compact yet expressive fixture. Referencing both early American tin candle holders and contemporary Mexican metalsmithing, with their flat, cloud-like scalloped silhouettes, Tinsel distills a timeless geometric motif into a robust three-dimensional form. The fixture is cast in aluminum and offered in our newest finish, Tumbled Pewter, as well as eight enamel colorways. A lyrical expression of rounded forms, Tinsel can be used as both a wall sconce and flush mount, either as a singular statement or in multiples. UL/cUL/CE listed. Damp rated. ADA compliant.
