

TREFLE STOOL

BY GUBI

The iconic Trèfle Stool was originally designed by Marcel Gascoin in 1949. Placing function and order over embellishment, the robust and functionally versatile Trèfle Stool shows a great example of how Gascoin facilitated interior design by creating elements easy to integrate. With a sleek and sturdy character, the Trèfle Stool combines a soft shaped split seat structure with strong, stable legs for an elegant yet resolute statement. Crafted in long-lasting, natural materials with attention to detail and true craftmanship, the Trèfle Stool adds a warm but undemanding presence that allows for a versatile use in the contemporary home.
