

TS POUFFE ROUND

BY GUBI

Celebrating great functionality with comfort, the TS Pouf in three sizes makes a versatile addition to any living area. The smaller size becomes handy to move around wherever an informal seat is needed, while the larger ones take on their full impact. The exclusive TS Pouf echoes the aesthetics of the TS Collection of slender metal legs and decorative detailing, originally made for the coffee tables to the restaurant The Standard in Copenhagen. In addition, the organic shape is emphasized with a decorative piping, known from other designs by GamFratesi.
