TWO SIDES OF SOLITUDE

BY CLASTE COLLECTION

The visual impact of this table depends on how it is positioned as it can be perceived primarily as a large monolithic block or as an extreme cantilever that seems to defy possibility. When combining two tables together there are various configurations which allows for several interesting and dynamic combinations of materiality and form due to the double-sided nature of each piece.

Dimensions

32 × 32 × 14 in
42 × 42 × 14 in
48 × 48 × 14 in
