

URBAN COLLECTION

BY BOVER

The URBAN collection offers ambient light through its handmade ribbon shade and the methacrylate diffuser; bringing warmth and timelessness to both residential and commercial environments.
The Urban collection is part of the BOVER product line usually used in the Contract/Hospitality sector but also created for the Residential market. The metallic ring which holds the bottom of the structure, functions as well as a decorative element of the large light diffuser. The light emitted by this lamp, as the major part of BOVER luminaires, is warm and cozy.
